

## Focus On Results

As a leader in the mortgage industry, chances are that your organization will eventually need to update the IT infrastructure that enabled your past success but may not allow for future growth. At CC Pace, we use our agile implementation methodology, ResultsExpress™, to focus on your desired business outcomes while implementing your LOS. Your organization aims for perfection. We won't stop until it's delivered.

## Always on Target for Success

Check out the benefits we offer through ResultsExpress™:

- ◆ Immediate return on technology investments: CC Pace's implementation methodology implements the highest priority features first, so you can immediately see tangible, testable results.
- ◆ Elimination of delivery risk: CC Pace identifies and mitigates risk, while the stakeholders control the direction of the project.
- ◆ Achievement of desired business outcomes: Rather than focus solely on implementing an "operational" system, CC Pace redefines success as the fulfillment of anticipated business outcomes.

## Pick Up the Phone and Dial

For more information about ResultsExpress™ or our full menu of mortgage technology services, contact CC Pace at (703) 631-6600 or visit us at [www.ccpace.com](http://www.ccpace.com)

Get accountability. Get quality. Get CC Pace.
